

**Workshop on Turkey- Germany Scientific Collaboration**  
**on Superconductivity and Their Applications**  
**(5-6 May 2014) Programme**  
**Monday, 5 May 2014**

| Time          | Topic                                                     | Speaker                     | Affiliation                    |
|---------------|-----------------------------------------------------------|-----------------------------|--------------------------------|
| 09:00 – 09:15 | Opening Remarks                                           | Prof. Dr. Erkan İbiş        | Rector, Ankara University      |
| 09:15 – 09:30 | Introduction from the German researcher group             | Prof. Dr. Mathias Noe       | Karlsruhe Inst. of Tech. (KIT) |
| 09:30 – 09:45 | Introduction from the Turkish researcher group            | Prof. Dr. Ali GENCER        | CESUR, Ankara University       |
| 09:45 – 10:00 | Coffee Break                                              |                             |                                |
| 10:00 – 10:10 | Superconducting Materials – Germany                       | Prof. Dr. Bernard Holzapfel | IFW Dresden                    |
| 10:10 – 10:20 | Superconducting Materials - Turkey                        | Prof. Dr. Ekrem Yanmaz      | KTU                            |
| 10:20 – 10:30 | Superconducting Wires - Germany                           | Dr. Wilfred Goldacker       | KIT                            |
| 10:30 – 10:40 | Superconducting Wires - Turkey                            | Prof. Dr. Ibrahim Belenli   | Bolu AIBU                      |
| 10:40 – 11:00 | Coffee Break                                              |                             |                                |
| 11:00 – 11:10 | Energy and Power Applications of Superconductors– Germany | T. Arndt                    | Siemens                        |
| 11:10 – 11:20 | Energy and Power Applications of Superconductors– Turkey  | Prof. Dr. Ahmet Cansız      | ITU                            |
| 11:20 – 11:30 | Electronics Applications – Germany                        | Prof. Dr. Hannes Toepfer    | TU Ilmenau                     |
| 11:30 – 11:40 | Electronics Applications - Turkey                         | Dr. Ali Bozbey              | TOBB ETU                       |
| 11:40 – 11:50 | Cryogenic Systems – Germany                               | H.U.Häfner                  | FH Frankfurt                   |
| 11:50 – 12:00 | Cryogenic Systems – Turkey                                | Yüksel Özkan                | Zenotek Inc.                   |
| 12:00 – 13:30 | Lunch                                                     |                             |                                |
| 13:30 – 14:30 | Formation of small working groups                         |                             |                                |
| 14:30 – 15:30 | Lab Tour                                                  |                             |                                |
| 15:30 – 18:00 | Small work group's free activities                        |                             |                                |
| 19:00         | Dinner                                                    |                             |                                |

**Tuesday, 6 May 2014**

| Time          | Topic                            | Speaker               | Affiliation              |
|---------------|----------------------------------|-----------------------|--------------------------|
| 09:00 – 12:00 | Activities of small work groups' | -                     |                          |
| 12:00 – 13:30 | Lunch                            |                       |                          |
| 13:30 – 15:50 | Activities of small work groups' | -                     |                          |
| 15:50 – 16:10 | Coffee Break                     |                       |                          |
| 16:10 – 16:20 | Summary from small work group 1  | TBC                   |                          |
| 16:20 – 16:30 | Summary from small work group 2  | TBC                   |                          |
| 16:30 – 16:40 | Summary from small work group 3  | TBC                   |                          |
| 16:40 – 16:50 | Summary from small work group 4  | TBC                   |                          |
| 16:50 – 17:00 | Summary from small work group 5  |                       |                          |
| 17:00 – 17:15 | Overview from German Side        | Prof. Dr. Mathias Noe | KIT                      |
| 17:15 – 17:30 | Overview from Turkish Side       | Prof. Dr. Ali GENCER  | CESUR, Ankara University |
